Change's Events

Change holds several retreats and events throughout the year and offers opportunities for 1-to-1 meetups with its founders. It supports the exchange of information and provides insight into the latest developments within the online business world. Events and retreats allow members to share ideas, and success stories, motivate each other and get input from founders personally. In the Change system, you view can both upcoming events and footage from previous events on the Event Page. It is recommended that you attend at least one event to get an idea of the value it provides.

Networking

The most significant benefit of attending events is networking opportunities with driven and motivated individuals active within the online business world. Change's events are regularly attended by its top earners, who love to share tips and tricks they've learned along their journey. Events place you within the centre of Change's community which is full of like-minded individuals who have been through the same process. Attendees often come away from events with new ideas and new motivation, which drives their success. It also provides the opportunity for personal development, particularly for those who aren't accustomed to working within a community. It helps you build a list of contacts to collaborate with in the future.

Personal Touch

Change prides itself on providing members with a personal touch through its system. Events allow Change's founders to meet community members, put a face to the name, connect personally, and understand your life and business goals more effectively. It also helps them provide tailored advice. Community members can also build support groups and get feedback on their business ideas.
